

ECPR Pathway Criteria

Consideration for ECPR in IHCA

OB Cardiac Arrests Identified for ECPR

FICU Team to L&D

- FICU RN activates EMS "ECMO CPR"
- Decision for ECPR <10m
- ECPR Activation (**p32005**)
- Mech CPR ASAP

Cath Lab: Cannulation

- Workflow echoes all ECMO: Cath Lab and ICU teams work in conjunction
- Consider DPC, venting, LHC, RHC

OB Resuscitation

- Call Code Blue
- Resus with modified recs
- Resuscitative delivery <5m

Transport to Cath Lab

- Resus per FICU MD
- LUCAS in place
- Transport: RT, FICU RN + MD
- CCL goal <30m

Post Cannulation

- CCU Admission
- ECMO Care
- Debrief
